

## Note

The following Table provides traffic trend information derived from a small sample set of traffic counters located on the national road network.

The information below covers the morning period from 7am until 10am. The trend for car traffic from this period of the day generally correlates closely with the overall daily trend in car traffic at each location.

This summary is produced daily.

## **Introductory Remarks**

- In the initial three weeks following the introduction of the March 27th restrictions, traffic volumes were very consistent. Overall traffic volumes were typically down approximately 65-70% across the national road network.
- From Tuesday 21<sup>st</sup> April, an upward trend in car traffic volumes became apparent.
- In response, daily traffic figures are being provided in order to more closely monitor the trends. Traffic figures are measured from 7am to 10am so as to provide an early indicator each day.
- Weekly heavy goods vehicle traffic has remained largely stable and accordingly the daily figures provided are for cars only.
- The changes day-to-day are not cumulative – they compare only the current day's figures versus the same day in the previous week and the same day last year.

## **Daily Data for Tuesday 7<sup>th</sup> July**

- Car traffic volume growth today as compared with Tuesday 30<sup>th</sup> June is lower than the growth rates experienced last week.
- Overall, car traffic today is typically down by between 17% and 37% of the volumes of one year ago, across the sampled traffic counters.
- Car traffic just south of the Northern Ireland Border on the N1 at Jonesboro is up 2% today as compared with Tuesday 30<sup>th</sup> June. The overall reduction in car traffic at this counter is now 35%.
- Car traffic volumes on the radial routes into Dublin show an increase this morning as compared with Monday of last week of between -1% and 3%. Car traffic is up 3% on the on the N7 at Citywest, 2% on the M4 at Celbridge-Maynooth, 1% on the M1 at Swords to Airport and -1% on the M11 at Bray. These growth figures are consistent with yesterday's but much lower than the growth levels recorded last week.
- The M50 (N3 Navan Road to N4 Galway Road) shows a 2% increase as compared with Tuesday 30<sup>th</sup> June. This is similar to the growth rates recorded today on the radial approach routes.
- In the case of the regional cities the increase in car traffic volumes this morning as compared with Tuesday 30<sup>th</sup> June is as follows: M9 Waterford 6%, and N40 Cork 3%, M7 Limerick 2% and N6 Bóthar na dTreabh Galway -5%. These growth figures are lower than last week's growth rates for the regional cities.
