Introductory Remarks

- Traffic figures are measured from 7am to 10am so as to provide an early indicator each day.
- Weekly heavy goods vehicle traffic has remained largely stable and accordingly the daily figures provided are for cars only.
- The changes recorded day-to-day are not cumulative – they compare only the current day's figures versus the same day in the previous week, the same day last year and with the same day prior to the introduction of Level 3 restrictions on 7th October (i.e. Wed 30th Sept to Tues 6th Oct).
- Initial restrictions were put in place on Thursday 12th March 2020. Countrywide Level 5 restrictions were in place from Thursday 22nd October to Tuesday 1st December and were reintroduced on 31st December 2020.
- On Friday 12th March the counter used on the M1 to extract data was changed from J1- J2 (M50 to Airport) to J2-J3 (Dublin Airport to Swords).
- On Monday 15th March the counter used on the M4 to extract data was changed from J6-J7 (Celbridge-Maynooth) to J3-J4 (Newcastle – Lucan)
- March 18th, 2019 was a bank holiday and as such is not appropriate for comparison.
