Introductory Remarks

- Traffic figures are measured from 7am to 10am so as to provide an early indicator each day.
- Weekly heavy goods vehicle traffic has remained largely stable and accordingly the daily figures provided are for cars only.
- The changes recorded day-to-day are not cumulative – they compare only the current day's figures versus the same day in the previous week, the same day last year and with the same day prior to the introduction of Level 3 restrictions on 7th October (i.e. Wed 30th Sept to Tues 6th Oct).
- Countrywide Level 5 restrictions were in place from Thursday 22nd October to Tuesday 1st December and were reintroduced on 31st December 2020.

Daily Data for Friday 29th January

- A fault occurred with the M9 J11-J12 counter resulting in failure to capture data for the reporting period.
