Subject: RE: Leinster Bridges- Reactive Maintenance RMP 22 & 23

Christian,
Having reviewed the content of the ROD email, I accept the reasoned determination as set out below.
Sincerely
Vincent

Subject: FW: Leinster Bridges- Reactive Maintenance RMP 22 & 23

Vincent,
Having reviewed Patrick's email below and having regard to the extremely minor nature of the works and the remote nature of any hydrological connection, I recommend that the following reasoned determination can be made:

Having performed screening for Appropriate Assessment in respect of the proposed reactive maintenance works detailed in the email received from Patrick O'Shea dated the 22nd of July, 2020, and entitled 'Leinster Bridges- Reactive Maintenance RMP 22 & 23', I accept the recommendations of Roughan and O'Donovan that the proposed reactive maintenance works, individually or in combination with other plans or projects, would not be likely to have a significant effect on any European site in view of the best scientific knowledge and the site's conservation objectives. I determine that an Appropriate Assessment of these proposed works is not required, as it can be excluded on the basis of objective scientific information following the screening done that the proposed works, individually or in combination with other plans or projects, will have a significant effect on any European site.

Kind regards,
Christian.
