

Transport Infrastructure Ireland's (TII), purpose is to provide sustainable transport infrastructure and services, delivering a better quality of life, supporting economic growth and respecting the environment. This commitment to sustainability is set out in the TII Sustainability Implementation Plan 'Our Future'.

This Environmental Policy is aligned with the TII Energy Policy and applies only to the operations and activities at TII's offices in Parkgate Business Centre, Dublin 8 as a commitment to ensuring good environmental practice, management, and continual improvement.

TII is committed to the protection of the environment, prevention of pollution, transition to a low-carbon and climate-resilient society through promoting sustainable and active travel, sustainable resource use and circular procurement principles. TII is also committed to the implementation and maintenance of an environmental management system aligned with the requirements set out in *ISO 14001:2015 Environmental Management Systems – Requirements with guidance for use*, which provides a framework for managing and enhancing environmental performance and the achievement of environmental objectives.

This Environmental Policy is set by the TII Chief Executive Officer (CEO) and is implemented for TII's operations at its offices on Parkgate Street through procedures and guidance. Whilst all employees have responsibility to ensure TII's activities consider the environment, the TII CEO is committed to and has ultimate responsibility for the environmental performance of the organisation and continual improvement.

Lorcan O'Connor, CEO      Date 09/01/2026

**TII is committed to good environmental management through the following overarching objectives:**

- Taking appropriate action across TII Parkgate Street offices to ensure that environmental risks are identified and managed to either eliminate, reduce, or mitigate adverse impacts;
- Driving the transition to net zero, by decarbonising activities at TII Parkgate Street offices;
- Enabling our staff to make sustainable travel choices by providing facilities for and encouraging active travel;
- Embedding sustainable energy management and resource use principles;
- Prioritising environmental sustainability in decision making to address climate and biodiversity issues through effective collaboration and communication amongst staff, suppliers, and contractors;
- Taking a life cycle perspective in procurement decisions and applying policies and standards which can influence the use of sustainable materials, better design and environmental performance; and
- Complying with all relevant statutory and other obligations and encouraging best practice.

The TII CEO supported by the TII Executive Team will ensure that the necessary environmental measures and resources are put in place to enable TII to meet its compliance obligations and minimise the environmental impacts of the organisation as far as reasonably practicable.

This policy is communicated to all TII staff and is made available to all interested parties. This Environmental Policy will be reviewed annually and revised as appropriate
