

# EU Network-Wide Road Safety Assessment (NWA\*)

## Safety Classification for National Primary Roads

### NWA Safety Classification

- 1 (safest classification)
- 2
- 3
- 4
- 5 (least safest classification)
- National roads outside the NWA scope
- Border of ROI and NI

\* Network-wide road safety assessment is a requirement of the Road Infrastructure Safety Management Directive (RISM).  
NWA combines proactive and reactive assessments conducted by independent teams across the same network.
