SCHEDULE 11

Article 5(1).

Conditions

1. That all tracks, platforms and other ancillary structures be organised and designed in such a way as to facilitate upgrading of the railway works authorised by this Order to Metro status when required.
2. In order to minimise the effects of noise from the light railway authorised by this Order on the amenity of adjoining houses, the Agency is required to put in place an acoustic barrier to be fitted along the width of the Leopardstown Roundabout Bridge after consulting with the Planning Department of Dun Laoghaire/Rathdown County Council regarding its height, appearance and substance.
3. At least three weeks prior to the commencement of any construction work adjoining or abutting on to watercourses, the Agency should consult with the Eastern Regional Fisheries Board, so as to address any revision in works/ operations to minimise any possible contamination of watercourses during carrying out or as a result of such construction works.

Given under my Official Seal,
this day of 2006

Martin Cullen
Minister for Transport.
